

## **M'silot Is Terrific - A Class Story**

### **by The M'silot Two Class**

I am happier in M'silot because I have more friends. I love my teachers in M'silot. They are nice. My teachers make me feel smart. We play games and pass the ball and say words. It is easier to learn.

I feel special in M'silot because I am learning to read more. We do fun things. We play sentence games, card games, and bang! My teachers help me to learn. If we have trouble, our teachers help us. They help me with my problems.

M'silot makes me feel great! It makes math and reading easier. I am learning more. We are better at visualizing and verbalizing. We are better at sounding out words. We are better at thinking.

It is good to be in M'silot. My writing skills are better. My handwriting is better. It is easier to read. Math is better because we learn so many things. We have good teachers. We have 6 teachers. We have a new classroom with new furniture. We have Hebrew strips, new books, and mailboxes. We have our own Hebrew teacher, Mrs. Saiman.

In M'silot I can learn Hebrew. I can think of the next thing to do. I can make pictures in my mind. I can help my friends and teachers. I can read, write, do math and spell. In M'silot we don't go so fast like other second grades. We learn new sounds everyday. We learn bossy *r*, and other reading rules like *tch*, floss rule, *ck*, and the *ch*, *sh*, *x*, *z*, and *s* plural rule. We have homework. We have funny teachers. We do pretty art projects. We have nice things to do.

Thank you Dr. and Mrs. Jerry Blumenthal and Mrs. Adele Blumenthal. Thank you for making M'silot a great place for us!
